

Shaw Contract Group's sustainable approach to product design and commitment to transparency and material health complement the philosophy of the Well Building Standard® and its seven concepts (listed to the right).

**Our products contribute to the following WELL standard requirements:**

### #04 VOC REDUCTION

Our EcoWorx flooring products are virtually VOC-free and meet the requirements for Green Label Plus certification. Lok\*Dots pressure sensitive adhesive provides an odorless option to virtually eliminate VOC emissions. Our resilient products meet this credit through FloorScore certification.

### #08 HEALTHY ENTRANCE

We provide walk-off options for use in all public space entries. Proper use of walk-off mats aids in the reduction of particulates.

### #11 FUNDAMENTAL MATERIAL SAFETY

Because our products are asbestos-free and contain no lead >100ppm our products demonstrate a commitment to safe material use and are in compliance.

### #25 TOXIC MATERIAL REDUCTION

EcoWorx Tile, EcoWorx Broadloom/Performance Broadloom, non-cushion broadloom and phthalate-free resilient products meet the WELL standard's requirements for specific material reductions are in compliance. We are currently working so that all of our resilient products will be phthalate-free by the end of 2015.

### #26 ENHANCED MATERIAL SAFETY

All Shaw Contract Group Cradle-to-Cradle Certified™ products are verified to be free of many suspected hazards that WELL buildings seek to avoid.

### #28 CLEANABLE ENVIRONMENT

Shaw Contract Group's carpet tile and resilient products are easy to remove and replace as part of WELL's commitments to a cleanable environment. For this credit, no wall-to-wall broadloom carpeting can be used.

### #87 BEAUTY + DESIGN

Shaw Contract Group's culture is to lead with design. All of our products are manufactured for aesthetics as well as durability.

### #88 BIOPHILIA I – QUALITATIVE

Carpet design can positively impact one's mood and morale, creating a calming environment and pleasurable work space.

### #97 MATERIAL TRANSPARENCY

Consistent with our customer's growing need to understand the ingredients that comprise building products, WELL recognizes manufacturers who are leaders in material transparency.
