

Specifications

Description	breathable polyurethane
Roll Width	72 inches
Roll Length	45 linear feet
Thickness	0.2 inches
Density	19 lbs/ ft3
Square Yards per Roll	30
R-Value	0.52
British Spill	Pass
Impact Insulation Class	74dB
Sound Transmission Class	62dB
Compression Set	5%
CFD at 25%	9.5 psi
CFD at 65%	75.3 psi
Radiant Panel	Radiant Panel must be tested in composition with carpet

Key Characteristics

- High performance polyurethane provides enhanced support to carpet in high traffic environments
- Breathable moisture barrier keeps spills from seeping through the cushion
- Antimicrobial content inhibits growth of mold and mildew
- Unique construction allows cushion to be stretched in or double glued
- Life of the carpet warranty, up to 25 years
- Made in the USA
