augment tile

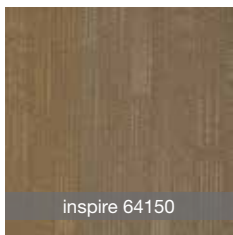

hype tile

ENHANCE USER EXPERIENCE

Shared spaces interconnect with digital dimension, graphic patterns and vivid bursts of color blocking—fusing classrooms, media spaces, gathering spots and conference settings. Layered textures and smart gradations let you blend dye lots imperceptibly and install your tiles in any configuration you choose, so there's no need for attic stock. It's responsive design for high-performance learning environments. **Design is interaction.** VIRTUAL SPACES is a no rules collection
